LAWSUIT

...

According to Article 589 of the Law on Obligations "the tenant can give leased object to another (sublease) or any other grounds handed use, but only if it does not harm the lessor"

According to Article 592 of the Law on Obligations "the lessor may order payment of their claims caused by tenant leases, may require direct payment from the subtenant, the amounts that he owes to the tenant based on subleasing." So, the lessor can restore their claims requiring them from the subtenant, but not necessarily.

Further in the same space is also registered the Association for nurturing and care of Jewish culture and spiritual heritage of the Jews - JEWISH COMMUNE - Bitola which has no association, nor capital, nor other corporate or managerial relationship with the plaintiff. Again the accused first appears as one of the founders of the Association and the same is authorized representative of this Association. So the fourth accused without legal basis has mastered the space for itself and has stated in his letter that he does not dispute that he rules the space and requires the space to be cede.

PROOF: Letter from notification 11/27/2013 Year. Since the sued did not paying rent, nor after the cancellation of the lease by the plaintiff subject office space empty from people and goods and the same grounds for the rule, and second, third and fourth sued to govern space without legal basis, we suggest the court after conducting the procedure and performance of the proposed evidence has reached the following
